---

A dedicated Computer Science student and aspiring Fullstack Developer with strong analytical thinking. Experienced in designing and building comprehensive web applications, managing both front-end interfaces and back-end logic. Proven track record in developing digital solutions for local businesses, including F&B and commercial sectors. Eager to learn and apply modern web technologies to solve real-world problems.

## EDUCATION

---

**Universitas Multimedia Nusantara**, Tangerang Aug 2023 - Present

*Bachelor of Computer Science*

Activities: Kompas Corner UMN, Teater Katak UMN 2024, Orientasi Mahasiswa Baru (OMB) UMN 2025

## EXPERIENCE

---

**Kompas Corner UMN** Feb 2025 - Present

*Website Developer*

- Developed a responsive company profile/business website for Kompas Corner to enhance brand visibility and customer engagement.
- Constructed the database schema to manage content and user inquiries efficiently.
- Integrated dynamic UI components to improve user experience (UX) and site navigation.
- Conducted testing and debugging to ensure cross-browser compatibility and smooth functionality.

**Teater Katak UMN 2024** Sep2024 - Dec2024

*Ticketing Division Staff*

- Managed ticket sales data by conducting daily recaps to ensure financial accuracy and accountability.
- Facilitated audience admission and handled ticket exchange processes, ensuring an organized flow of visitors during theater performances.

## PROJECT

---

**Community Service Project at Rumah Makan Padang Sinar Minang**

*Website Developer*

- Designed and developed a comprehensive Full-Stack web application using the Laravel Framework to digitize the business presence and streamline menu management.
- Implemented a dynamic Front-End interface using Laravel Blade Templating Engine, enabling modular code structure and allowing customers to browse categorized menus with ease.
- Engineered the Back-End logic using Eloquent ORM to handle complex database relationships, allowing administrators to perform CRUD operations for menu items and update stock availability in real-time.
- Optimized application performance through efficient database indexing and responsive design, ensuring cross-platform accessibility for customers on mobile devices.

## **Universitas Cendrawasih Pub Website**

### *Webite Developer*

- Developed the frontend interface for one of Universitas Cendrawasih's study programs using React.js, ensuring a modern and professional academic web presence.
- Built reusable and modular UI components to maintain design consistency across key pages such as Home, Curriculum, and Faculty Profiles.
- Implemented a fully responsive design, ensuring optimal viewing experience across desktop and mobile devices for prospective students.
- Optimized page load performance and navigation flow to enhance user experience (UX).

## **LANGUAGES AND SKILLS**

---

- **Languages:** Bahasa Indonesia (Native), English (Limited Working Proficiency).
- **Technical Skills:** Fullstack Web Development, HTML, CSS, JavaScript, ReactJS, VueJS, PHP, Laravel, MySQL, Database Design, Responsive Design, UI/UX Implementation.
- **Soft Skills:** Analytical Thinking, Eager to learn, Detail Oriented, Problem Solving, Innovative.
